Haymakers Roll On Monday

<https://youtu.be/7M-YQ-tXDy8>

In this narrated video, William Couey operates a hay-baling machine on Monday (July 31). Unmanned aerial system operator Jeff Hardison and Caleb Champion are seen briefly in the video as well. The young Mr. Champion helped members of the Couey family as they cut, fluffed and baled the hay.

Some of the scores of hay bales that were rolled in the past few days are seen here.

Some of the John Deere equipment for making hay stands ready to roll on the field.

This rotating rake brings the hay more off of the ground and helps it become more dry and easier to roll into bales.
