Bronson High School Band Director And BHS Band Members Wash Cars

Bronson Middle High School Band Director and Music Teacher Michelle Barber (second from left), who has helped students in that capacity for 10 years now, was among the workforce in front of Bronson Ace Hardware on Saturday (Dec. 16) washing cars. Certainly, she and the 15 students working to raise funds that day saw some of the hardware patrons who went into the store to say to clerks there 'Please tell Wendell that Santa sent me.' The teacher and her students were washing cars and trucks to raise money for musical instrument repair, Barber said, as well as to take 20 musical students on a trip to Disney World in Orlando. Among the many people who helped the band while getting their vehicle clean was J.R. Trimm, a graduate of Bronson High School. The teacher and students braving the brisk weather on Saturday appeared to be enjoying their work and the people paying for the service seemed to be pleased as well.
