17,000 unique visitors register 1.3 million hits

THE INK PAD -- From March 1 through March 31, there were about 17,000 unique visitors registering in excess of 1.3 million hits on the 8-year-old daily news website named *HardisonInk.com*.

This for-profit American enterprise that is solely-owned (rather than part of a corporation, conglomerate or partnership) continues to thrive, according to two independent, automated traffic-registering programs -- *Google Analytics* and *cPanel*.

"We are keeping it great at Year Eight," said Jeff Hardison, publisher and owner of *HardisonInk.com*, after first noting he is thankful to God for all things -- including the total loss of the 2014 Jeep Compass in a crash March 11.

"The Jeep is gone," Hardison said. "That is some number of dollars of a loss; however, this is another inspiration for me to sell more ads -- thereby helping more people increase customer traffic to purchase the goods and services they offer."

Beyond that, he added, he is thankful for the continued growth, which shows a strong base of loyal readers, viewers and listeners as the daily news website moves forward along toward its eighth year of existence, which started on Feb. 1, of this year.

Not only is this the best source for daily news, he said, this is also the best platform for advertising because of the traffic to the site.

"Private and public interests recognize advertising in *HardisonInk.com* is the best return on investment for money spent on advertising. This is nice for me to see as well," Hardison said. "I anticipate making offers to companies and individuals to help their businesses enjoy the benefits of advertising in my daily news website."

The numbers for 2018 are shown in the graphic below:

Month	Unique visitors	Number of visits	Pages	Hits
Jan 2018	18,587	39,185	124,471	1,360,624
Feb 2018	14,886	29,376	113,755	1,136,810
Mar 2018	16,933	34,516	117,081	1,344,307

Hardison, a multiple award-winning daily and weekly newspaper writer and editor, and now publisher and daily news outlet owner, said he is pleased to see more individuals visiting the site every time the monthly reports show that fact.

The national advertisements will remain on the bottom of the pages, he said, because local advertisers are better served by being on the right side of the pages and in the body of the pages. The ads for four local Chambers of Commerce currently are at the bottom of the Community Page.

Following are the figures from two independent robotic programs for March of 2018.

UNIQUE VISITORS

The first gauge reflects Unique Visitors.

Webopedia.com defines unique visitor as "a person who visits a Web site more than once within a specified period of time." Software used for this report can distinguish between visitors who only visit the site once and unique visitors -- who return to the site.

The unique visitor is different from a site's hits or page views -- which are measured by the number of files that are requested from a site. Unique visitors are measured according to their unique Internet Protocol addresses, which are like online fingerprints, and unique visitors are counted only once no matter how many times they visit the site after they have visited it twice.

UNIQUE VISITORS

March 2018 – 16,933

The number of visits is as it says. This is the number of times that these visitors came to pages.

NUMBER OF VISITS

March 2018 – 34,516

Pages Viewed shows how many different pages the visitors looked at. This website has the Home Page, Police Page, Calendar Page, Business Page, Community Page, Life Page and the Leisure Page.

PAGES VIEWED

March 2018 – 117,081

What is a “hit?” When a viewer looks at a page, there are elements on the page that register a “hit.” For instance, if there are four pictures on a page, then that may equal four “hits.” Like all of the gauges, this is a measure of traffic.

HITS

March 2018 – 1,344,307 (a million-plus hits)

“These figures mean there are more people each day who use *HardisonInk.com* as a source for information,” Hardison said. “And they return daily. If your product or service is better than the competitors’ products and services, then you will have better odds of being the manufacturer, farmer or service provider of first choice in any market.”

HardisonInk.com continues to grow in readers, viewers and listeners (yes, the videos have sound). More and more business owners and other individuals are seeing that this is the best site for Levy, Dixie and Gilchrist counties’ daily news.

This website is the best medium in this market to advertise, which is proved by annual increased revenue even though the price of ads remains stable since the site’s inception.

HardisonInk.com has the Weather Bug on the Home Page for all current weather and forecasting needs, including radar and Weather Alerts. It has columns for quilt reports, Christian devotionals and more.

HardisonInk.com provides state news on the BUSINESS PAGE and other pages on occasion when it is merited.

2017 AVERAGES

Unique Visitors 15,552
