## Students Honored

Williston Mayor Jerry Robinson honored two Mayor's Students of the Month candidates Tuesday night (May 8) at the regular meeting of the Williston City Council. Seen here (from left) are Addyson Kidd, Mayor Robinson and Jon Kopecky. Jon Kopecky is a second grader at Joyce Bullock Elementary School and his teacher is Meredith Stone. He is the son of Renee Kopecky. Stone said the following about the student, which the mayor read as he presented a certificate to the boy. 'Over the last four years I have had the pleasure of watching Jon thrive. Each morning he gets up and comes to school and conquers every challenge I throw his way. He has grown so much academically and socially. Jon is a hard worker. He has an excellent personality and loves to make people laugh. He is polite, friendly, and a joy to have in class. We recently took our final i-Ready diagnostic in reading. Jon took his time, read and reread passages, and surpassed his goal by a landslide. I am incredibly proud of Jon and all of his accomplishments!' Addyson Kidd is a fifth grader at Williston Elementary School and her mother is Whitney Kasperski. Addyson Kidd's WES fifth grade teacher is Michelle Ruiz, and Addyson is on the Safety Patrol. This is what was noted about this Student of the Month. 'Addyson is a true role model student! She is an extremely hard worker and strives for perfection in all that she does. As a student and safety patrol, she goes above and beyond the high expectations that have been set for her. Our classroom community is better as a result of her willingness to help her classmates and teachers. As a self-motivated student, Addyson has created some amazing goals for her future and it is clear she will work diligently to achieve them. She has been a joy to teach and I look forward to seeing all that she will accomplish!'
