Church Thanks Memorial Kitchen Builders

To those of you who helped with the Thelma McCain cook shed behind the Cedar Key Community Center, please accept a great big THANK YOU! When we lost Thelma a year ago, we knew there had to be a way to honor her many contributions to the community, especially her concern that everyone in Cedar Key be well cared for and be well fed. That led to Henry Coulter's idea to build a cook shed behind the center, so that anyone using the center would have a place to cook for large crowds. After the city waived the fees, so many of you stepped up to help with financing and construction. Thank you to the churches, the banks, the community organizations, the businesses and thank you to the individuals who gave tirelessly of their time. Without all of you, this memorial to Thelma would not have been possible.
