Deer!

Five deer recently visited a location in the Tri-County Area of Levy County, Dixie County and Gilchrist County.

Deer, wild hogs, turkeys, armadillo, raccoons, skunks, squirrels, and a plethora of many other types of wildlife -- including common and rare birds are found throughout the Tri-County Area.

One of the deer saunters away.

This deer's eye appears to be lighting up as a result of a flash from the camera.

Although the deer may appear to be speaking in the video, this was taken with a long lens and the audio has been removed due to background noise.
